Battery  
Technology

10400mAh  
High  
Capacity

Built-In  
LED Flashlight

Up to 5L Petrol  
or 3L Diesel

Sparkless  
Smart Cable

### 1000A JUMP STARTER

You'll never be stranded with a flat car battery again thanks to the Gizzu Jump Starter. With a peak current of 1000A, it can jump start a petrol engine up to 5 litres or a diesel engine up to 3 litres. It features a sparkless smart cable with LED display giving 9 different protection function readings. At less than 14cm long and 8cm wide, the Gizzu Jump Starter is ultra-compact and comes with a dedicated carry case to neatly fit into your glove compartment while travelling. Thanks to the built-in LED flashlight you won't be left in the dark either and with a USB 3.0 port, you can keep your mobile devices charged while roadside.
