

# UNIVERSAL VOLTAGE PROTECTOR PLUG

Automatic Voltage Protection

Current Protection up to 16 A

High and Low Voltage Protection

Power Surge Protection Technology

## FEATURES

- Current protection up to: **16A**
- Low voltage protection from: **180V**
- High voltage protection up to: **260V**

- Flame retardant material
- Digital LED display

## PACKAGE CONTENTS

- 1x Gizzu Universal Voltage Protector

### IDEAL FOR PROTECTING YOUR APPLIANCES

The Gizzu Universal Voltage Protector will keep your appliances protected against damage caused from high voltage, low voltage, voltage dips, and power surges. It monitors the electricity voltage and automatically disconnects the power if the voltage is too high, or too low, protecting appliances and electronics from damage.

### STAY SAFE DURING POWER OUTAGES

This is an essential accessory for environments with inconsistent power supply and is rated for 16A Current. It regulates voltages between 180V and 260V to provide a stable supply to your appliance. If the voltage moves outside of these limits, power is cut to protect the equipment.

Model SKU	GSP16A
EAN	6009710153833
Nominal Voltage	230Vac
Frequency	50/60Hz
Current Rating	16A
Spike Protection	160J
Low Voltage Protection	180V
High Voltage Protection	260V
Material	PC V0
Dimensions	6.7 x 11.5 x 20.3 cm
Weight	163g
